## Club President Larry Callahan KF6JOQ

Hello Friends, with a successful Field Day behind us we can start planning on the CQP "California QSO Party". Oct 7th is the

**Terry N6AJ** 

Frank KD6UQZ

andy KC6ZRF

James KK6D

date so make plans to join us at location (TBA). This months program is about Space X and Iridium next satellites, thanks to Dave KG6YSZ. Hope to see you there

Larry Callahan KF6JOQ 661-834-3204

## **Club Officers & Directors**

President - Larry Callahan Kf6joq kf6joq@sbcglobal.net 1st VP -Mario Arribas N6abt n6abt@hotmail.com 2nd VP- Open - Volunteer needed Secretary- Neal Janzen N6ygg neal@janzen.org Treasurer- James Johnston Kk6dln jimthej@me.com Director- Johnthan Greywacz Kk6ifs jgrewacz@bak.rr.com Director - Dan Hart Ke6uhg (no email) Director - Tim Capehart N7bjd fireinst@pacbell.net Past Pres- John Stumm Kg6zbn jstumm@bak.rr.com

This years Field Day was outstanding, great turn-out by the club membership and seldom seen members and brand new members. Neal N6YGG and Randy KC6ZRF keeped everyone supplyed with cold drink and food so that we didn't melt in the summer sun. Mario N6ABT was the Ring-leader in getting this cirus off the ground and headed for a great Field Day Event. Other than getting blassted out of the bands by CW WA6HZY it was a very pleasent Day, dx-ing and having fun. New members brought equipment help setup and stayed all day, even some old members looked like they had came back to life, excited and would not stop talking, just kidding as they say a good time was had by all. Even Larry KF6JOQ was seen walking around with a smile untill it came time to take the mobile Beam Antenna trailers back to his yard. Everyone should thanks Mario N6ABT, Larry KF6JOQ and Neal N6YGG and Randy KC6ZRF and many other members for the effort they all put into this years Field Day.

## **NEW HF HAM RADIO'S**

Yaesu FT-891 - 160 to 6 meter

Icom IC-718 - 160-10 meters

Alinco DX-SR8T - 160 to 10 meters

The **Yaesu FT-891** is an amateur HF transceiver covering the **160 to 6 meter** bands with 100 watts. It features a triple conversion general coverage receiver tuning 30 kHz to 56 MHz. Modes include AM, USB, LSB and CW. DSP technology supports QRM and noise reduction, auto notch and APF audio peak filter. Other features include: attenuator, 4-60 WPM keyer, TCXO, CAT port, auto power off, full break-in, backlit LCD and backlit keys. This radio is easy to operate. **At many retailers for under \$650.00.** 

The **Icom IC-718 covers 160-10 meters**. This radio is very easy to operate with one touch band switching, direct frequency input via keypad and auto tuning steps . The receiver section features IF Shift, Adjustable Noise Blanker, RIT and UT-106 DSP Automatic Notch/Noise Reduction. These big rig features give you the necessary tools to fight interferenceThe transmit section features up to 100 watts of RF output and AF speech compression to increase average audio output. A Morse keyer is built-in.

At most retailers under \$650.00

The Alinco DX-SR8T covers 160 to 10 meters in SSB, CW, AM and FM. The transmitter delivers a powerful 100 Watts in SSB, CW and FM (40 Watts on AM). And three power levels may be selected: 100 Watts, 10 Watts and a variable QRP setting of 0.1 ~ 2 Watts. The receiver tunes general coverage from 30 kHz to 35 MHz. Other features include: IF shift, 600 memories, band and memory scanning, attenuator, preamp, RIT, XIT and noise blanker.

At most retailers for under under \$500.00
